

Public Use EV Signage

ICSEVS4

850mm(h) x 400mm(w)

Wall mount

Designed to mount iCS chargers on, compatible with ICSW7C, ICSWT7C, ICSW22C, ICSWT22C

Instructions for public use charging via app, with space to include QR code to download app, and QR code to link to EV charger station (QR code stickers can be supplied by iCS, we will need the serial number for the charger)

The graphic for the ICSEVS4 signage features a blue 'P' parking sign and a green EV charging icon at the top. Below them is the title 'Electric Vehicle charging point'. The instructions are divided into three sections: 'TO REGISTER' (1. Scan QR Code or Download App CHARGE ASSIST, 2. Open App, go to Settings, Add Payment Method, Enter Payment Details, with logos for VISA, Mastercard, and Google Pay), 'TO START' (Open App, Scan QR Code), and 'TO STOP' (Open App, Stop Charging). A QR code is shown to the right of the instructions. At the bottom is the iCS logo and the website www.intelligentchargingsystems.co.uk. An image of the physical charging point is shown in the center.

ICSEVS5

467mm(h) x 400mm(w)

Supplied with 76mm post clips

Rear horizontal channel for mounting to vertical posts

Instructions for public use charging via app, with space to include QR code to download app, and QR code to link to EV charger station (QR code stickers can be supplied by iCS, we will need the serial number for the charger)

The graphic for the ICSEVS5 signage is identical in content to the ICSEVS4 version, featuring the same icons, title, instructions, QR code, and iCS branding.
